Kalyan, IN 421306 ♦ +91 9702921920 ♦ bhandigaredarshan@gmail.com

SUMMARY

BSc IT student at D.G. Ruparel College (CGPA 9.18) with hands-on experience building and deploying full-stack web applications using **Next.js, JavaScript, and SQL**. Created **InvoVault** — a live invoice management platform built for **Fix My Itch by Razorpay** and two other production-deployed projects. Actively strengthening **Data Structures & Algorithms in C++** alongside web development skills. Seeking an internship to apply and grow these skills in a real engineering environment

SKILLS

Languages: C, C++, jQuery, Dart

Frontend: HTML, CSS, React.js, Next.js, TypeScript

Backend: REST APIs, JavaScript, SQL

Tools & Platforms: Git, GitHub, Vercel, Supabase, WordPress

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Experience

Currently building practical experience through **independent project development and competitive problem-solving**. Completed the **Deloitte Virtual Internship Simulation** and hold certifications from **Oracle** and **IBM**. Open to internship opportunities to bring these skills into a team environment.

Education

D.G. Ruparel College of Arts, Science and Commerce • 2025 - 2028
Bachelors of Science in Information Technology; CGPA – 9.18 (current)

KV Pendharkar College • 2024 - 2025
Higher Secondary School

Projects

InvoVault | Fix My Itch by Razorpay | Tech Stack: Next.js, TypeScript, JavaScript, SQL

github.com/DarshanBhandigare/InvoVault · invovault.vercel.app

- Built a **secure invoice generation platform** for freelancers and micro-SMEs with **automated PDF generation** and client management.
- Engineered **dynamic dashboards** with real-time client data, invoice history, and status tracking.

Inframind AI | HackX 2.0 | Tech Stack: React.js, JavaScript, HTML/CSS, Firebase

github.com/DarshanBhandigare/InfraMind-AI · inframind-ai.vercel.app

- Built a **predictive infrastructure management platform** using AI-driven risk scoring to detect and flag potential infrastructure failures before they occur.
- Developed **citizen reporting system** allowing users to submit real-time infrastructure issues, feeding data into the risk assessment pipeline.
- Implemented **full-stack architecture** with **React.js frontend** and **Firebase backend** including **authentication, real-time database, and deployment**.

Paletto Color Palette Generator | Tech Stack: HTML, CSS, JavaScript

github.com/darshanbhandigare/paletto-color-generator · paletto-color-generator.vercel.app

- Built a **responsive colour palette generator** delivering instant, design-ready palettes for frontend developers and designers.
- Focused on **zero-friction UX** — no sign-up required, one-click palette generation with clean visual output.
